# Problem Statement

**Team ID: PNT2022TMID53910**

**Project Title: Estimate the Crop Production Using Data Analytics**

Crop production in India is one of the most important sources of income and India is one of the top countries to produce crops. Due to variations in climatic conditions, there exist bottlenecks for increasing the crop production in India. It has become challenging task to achieve desired targets in Agri based crop yield.

| Questions | Answers |
|---|---|
